Monday

During your first week on the project, you will take part in an introductory session where you will meet the staff at the hospital and be shown around the facilities. Procedures and equipment used will be fully explained to you and you will meet the fully qualified, English-speaking doctor that you will be shadowing while you stay. Staff at the hospital will discuss your medical background and decide with you the role that you will take on.

Tuesday to Friday

On the Tuesday of your first week, you will begin your medical placement. As well as being suitable for your level of experience, your duties will be responsive to the needs of the patients and the hospital. This could involve assessing patients, performing medical procedures to treat ailments, or observing practices in the operating theatre or x-ray rooms. In addition, you will be expected to attend regular meetings at the hospital where you will take part in discussions about practices and routines and how they could be improved.

Evenings and Weekends

At the end of your busy day as a volunteer, you can choose to explore the area or simply relax with new friends back at your accommodation. Many of our volunteers enjoy mixing with their new volunteer friends during the week and plan their weekend adventures together!

Please note: This schedule can be changed and/or amended depending on weather conditions, local conditions and unforeseen circumstances.

Activities and Events

Football is arranged for volunteers every Wednesday together with the local coordinators.
