Project itinerary

Immerse yourself in Israel by assisting local teachers create a safe, healthy environment for troubled children.

Work in a school nursery and interact with its youth while assisting staff with daily activities. You will have the opportunity to share your knowledge and experience with the children as through the program, they learn that they each have the ability to bring a dying plant up to full health, a strong metaphor for all precious life...including their own!

You can expect to work from 9:00 to 15:00 at the school, but daily activities may change from week to week. Expect a lot of gardening, some construction, and some interaction with the Children...though please note that depending on the time of year you may not have the chance to interact as much with the children (i.e. during school holidays and breaks).
