coordinator assigned to you. Once you plan the project and receive the relevant information, you can have lunch and then leave to work at the community location. Finally, at the end of your volunteering day, you will return to the centre and attend a meeting where you can provide feedback on your day on placement.

Tuesday to Friday

Your day will begin early. You will be taken to our project site and assigned tasks for the day. Importantly, know that you will have plenty of support, and that your coordinator will be around to guide you during the project. After lunch, you will work at the community location where you will continue with construction and renovation activities.

Please note:

This schedule can be changed depending on weather conditions and unforeseen circumstances.

After a day of working as a Construction & Renovation Volunteer, you can choose to explore the area or simply chill. Many of our volunteers enjoy mixing with their new volunteer friends through the week and plan bigger outings at the weekends!
